FROM THE AMERICAN PEOPLE

INCLUSIVE DISASTER PREPAREDNESS FOR LOCAL RESILIENCE

IN AREAS AT HIGH RISK OF NATURAL AND
HUMAN-INDUCED HAZARDS
IN THE PHILIPPINES

284,831 **TARGET BENEFICIARIES***

START DATE: JULY 25, 2024
DURATION: 24 MONTHS

The iPrepared 2 project is designed to enhance resilience in areas highly vulnerable to natural and human-induced hazards. Building on the success of the initial iPrepared Project, which also aimed to strengthened disaster resilience primarily in BARMM through capacity-building, proactive climate-informed planning, and sustainable risk reduction strategies, iPrepared 2 scales up these proven interventions for broader impact.

With the funding support of the **United States Agency for International Development's Bureau for Humanitarian Assistance (USAID-BHA)**, iPrepared 2 is implemented by Action Against Hunger together with the Integrated Mindanaoans Association for Natives (IMAN).

Specifically, the project aims to support and contribute to the enhancement of disaster and climate resilience capacities of the BARMM Region, the Province of Palawan, select municipal local government units, local stakeholders, communities and households through climate and risk-informed preparedness mitigation and response planning and awareness.

PROGRAMS

DISASTER RISK REDUCTION

Strengthen the ability of local governments and other stakeholders to plan and respond to disasters effectively which includes improving preparedness planning and programming, especially in regions prone to climate-related risks.

WATER SANITATION & HYGIENE

Enhance the resilience and response capacity of local communities in terms of improving water supply systems, particularly in areas vulnerable to natural disasters.

AGRICULTURE

Prepare farming communities for potential hazards and climate change impacts by introducing improved food systems and innovative climate adaptation technologies.

ECONOMIC RECOVERY & MARKET SYSTEMS

Boost the coastal communities' economy by promoting sustainable use of marine and coastal resources, improving financial literacy and inclusion to help these communities recover and thrive even in times of disasters.

INTERVENTION AREAS

MAGUINDANAO DEL SUR

Ampatuan
South Upi

LANAO DEL SUR

Buadiposo-Buntong
Bubong

TAWI-TAWI

Bongao
Languyan

PALAWAN

Roxas
San Vicente

SECTORS AND ACTIVITIES

DISASTER RISK REDUCTION

Policy and Planning
Capacity Building and Training
Building Community
Awareness/Mobilization

- Support the conduct of multi-sector participatory climate and disaster assessment.
- Support the Development /enhancement of Climate and Disaster preparedness, early warning protocols, and rapid response mechanisms.
- Support the review and enhancement of an Inclusive Disaster Risk Reduction and Contingency Planning
- Enhance or Improve Disaster Risk Assessment (CDRA) or Local Climate Change Action Plan (LCCAP).
- Basic/Advanced Emergency Response Skills and Systems based training.
- Support and conduct awareness campaigns and simulation exercises of DRR plans and systems.
- Harnessing learnings and producing Knowledge Products.

WATER SANITATION AND HYGIENE

Water Supply

- Technical Assessments of existing WASH services, coverage in the targeted communities and WASH In Emergency (WIE) capacity.
- Conduct WIE and Operations and Maintenance (O&M) training for LGUs/ stakeholders.
- Provision of O&M equipment kits for LGUs/stakeholders Repair/ Rehabilitation/ Construction of WASH facilities.
- Conduct of Water Safety Plan (WSP) training for trainers and implementers and development/ improvement of Water Safety Plans (WSP).
- Activation of LGU WASH Council to integrate water security framework and technical and mobilization support to establish ground water control and monitoring.
- Awareness raising on HH-level water conservation, safe management, and climate change using BCC strategies. Conduct of WASH in Emergency Training (WIE) and Basic Sanitation Course LGU.

AGRICULTURE

Improving Agricultural Production

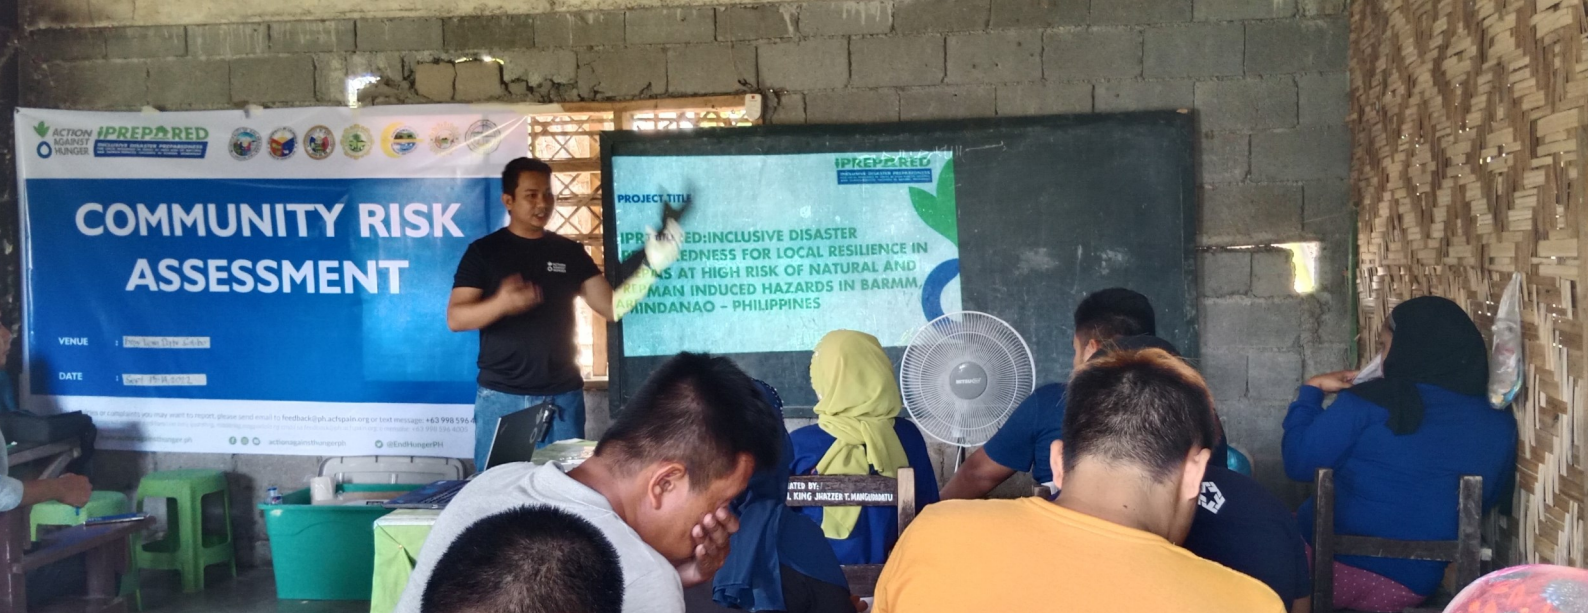

- Technical assistance to the regional (BARMM-MAFAR) and provincial agriculture offices in the development of preparedness and response protocols and enhancement of agriculture-related social protection.
- Support to innovative Agri-Technology and approaches for Climate Change Adaptation of farming communities

ECONOMIC RECOVERY & MARKET SYSTEMS

New Livelihoods Development

- Coastal Livelihoods Assessments
- Development of Alternative Coastal Livelihoods
- Integration of resilient livelihoods and environmental initiatives into local government unit plans

IPREPARED: INCLUSIVE DISASTER PREPAREDNESS FOR LOCAL RESILIENCE IN AREAS AT HIGH RISK OF NATURAL AND HUMAN INDUCED HAZARDS IN BARMM, MINDANAO – PHILIPPINES

IPREPARED is implemented by Action Against Hunger through the United States Agency for International Development's Bureau for Humanitarian Assistance (USAID-BHA) funding.

The goal of the project is to build inclusive and gender-equal disaster preparedness capacities of local government units and communities in areas vulnerable to natural and human-induced hazards in the Bangsamoro Autonomous Region of Muslim Mindanao (BARMM), Mindanao, Philippines.

This goal focuses on building capacities and partnerships for preparedness and resilience of vulnerable indigenous peoples and local communities, amplify and enable a whole-of-system approach for women and other sectors to lead climate and disaster action to strengthen governance's responsiveness and effective preparedness actions.

The following are **IPREPARED's** major interventions:

SECTOR

OBJECTIVE

DISASTER RISK REDUCTION

Building Community Awareness/Mobilization
Capacity Building and Training
Policy and Planning

To improve local government and community processes, integrating climate and risk information in early warning, appropriate and mitigation interventions in preparedness planning, and responsive social protection to reduce impacts of natural hazards.

KEY ACTIVITIES

- Capacity and Vulnerability Assessments
- Integration of Preparedness Action to DRR Plans
- DRRM Planning
- Contingency Planning
- Systems-based and Skills-based Trainings
- Development of End-to-end Early Warning Systems
- Simulation Exercises
- Policy Advocacy

AGRICULTURE

Improving Agricultural Production

To enhance agricultural skills of farming communities integrating preparedness frameworks and strategies

KEY ACTIVITIES

- Climate Resilient Field Schools
- Community Savings Groups
- Financial Inclusion
- Market Assessments and Value Chains
- Community-based Enterprise Development
- Trade Fairs
- New Livelihoods Development
- Preparedness planning of farmers

ECONOMIC RECOVERY & MARKET SYSTEMS

New Livelihoods Development

To improve community access to livelihood opportunities.
